Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspectsinaclearandorganizedmanner.Thisdocumentoutlinestheplanfordemonstratingtheproject, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Data Collection and Extraction	Gathering diverse global EV market spreadsheets and establishing optimal connections in Tableau by generating high-performance **Tableau Data Extracts** for faster processing.	1 min	Suhani Porwal
2	Data Preparation	Building custom calculated fields, nesting Level of Detail expressions, and configuring data relationships within Tableau's logical layer to normalize inconsistent driving ranges and customer scales.	1 min	Suhani Porwal
3	Data Visualizations	Constructing highly interactive individual worksheets—including filled maps, technical scatter plots, and packed bubble charts—to analyze battery technologies and sales performance.	3 min	Suhani Porwal
4	Dashboard	Arranging worksheets into functional dashboards using dynamic container layouts, synchronized cross-sheet filters, and customized tooltips to serve individual stakeholder personas.	2 min	Suhani Porwal
5	Story	Designing a guided narrative path within Tableau to walk non-technical users step-by-step through the core analytical findings, market trends, and sustainability insights.	1.5 min	Suhani Porwal
6	Performance Testing	Utilizing Tableau's built-in **Performance Recorder** to profile dashboard rendering speeds, optimize calculation fields, and eliminate workbook lag prior to delivery.	1.5 min	Suhani Porwal
