TeamID	Suhani Porwal
ProjectName	**Electric Vehicle Market Performance & Insights**
MaximumMarks	1Mark

DemonstrationofProposedFeatures:

Thisdocumentcapturesallthefeaturesthatwereproposedduringtheprojectplanningphaseandtracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented/ Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Executive Sales & KPI Dashboard	High-level landing page featuring aggregate annual EV sales, category breakdowns (SUVs, sedans, etc.), and top-performing manufacturers.	Implemented	**Yes**	Fully addresses **Emily's** core requirement for executive-level market overviews.
2	Battery Technology Benchmarking View	Technical matrix analyzing battery chemistry adoption (**LFP, NMC, NCA, Sodium-Ion, Solid-State**) against metrics like driving range and capacity.	Implemented	**Yes**	Built to satisfy **Dr. Sarah's** sustainability and technological trend research.
3	Geographic Production & Market Share Map	Interactive filled/symbol map visualizing manufacturing countries, production density, and regional market share percentages.	Implemented	**Yes**	Directly helps **David** analyze international competitor landscapes and production hubs.
4	Cross-Dashboard Dynamic Filtering	Set Actions and Parameter Actions allowing users to click a vehicle category on one sheet and instantly filter all other sheets.	Implemented	**Yes**	Enhances user experience by allowing stakeholders to drill down into custom slices of data
5	Unified Range Normalization Model	Custom Calculated Fields using Level of Detail (LOD) expressions to standardize driving ranges (WLTP vs. EPA) into a uniform mile/km metric.	Implemented	**Yes**	Solves the baseline data discrepancy problem flagged in the technical review phase.
6	Interactive Tableau Story Points	A narrative path ("Story Walkthrough") that guides non-technical users step-by-step through the core findings of the EV market analysis.	Implemented	**Yes**	Core story paths are functional; minor styling refinements are pending for final deployment.
